

Dhiraj Gogoi

Machine Learning Enthusiast | Full Stack Developer

Silchar, Assam, India | +91 6001428898 | gogoidhiraj207@gmail.com | Portfolio | GitHub

Summary

Computer Science undergraduate with a strong focus on Machine Learning and Data Science, experienced in building and deploying end-to-end intelligent systems. Skilled in developing ML pipelines and integrating models into scalable backend systems using REST APIs.

Alongside Machine Learning, proficient in full-stack development using the MERN stack and React Native, enabling the development and deployment of data-driven, production-ready applications.

Technical Skills

- Languages : Python, JavaScript, C/C++, Bash, SQL
- Web : React, React Native, Next.js, Node.js, Express.js, MongoDB, PostgreSQL, REST APIs
- ML & Data : NumPy, Pandas, Scikit-learn, Matplotlib, Seaborn.
- DevOps : Linux, Nginx, PM2, VPS, SSL, Git, GitHub, Postman

Professional Experience

- Oct 2024 – Dec 2025
- Full Stack Developer — ANOVAS**
 - Developed and deployed 5+ production-level web applications for clients.
 - Built REST APIs for authentication, data handling, and role-based access.
 - Managed deployment environments, domains, and production debugging.

Projects

- Machine Learning
- AI Scam Detection System** GitHub | Live
 - Built a TF-IDF + XGBoost pipeline for job-posting fraud detection.
 - Achieved 98% accuracy through feature engineering and class imbalance handling.
- Smart Tourist Safety System** GitHub
 - Developed GPS-based anomaly detection using Isolation Forest.
 - Engineered movement features such as speed and acceleration.
- AI Spend Intelligence System** GitHub | Live
 - Built anomaly detection for duplicate payments and cost leakage using Isolation Forest.
 - Implemented forecasting and a Streamlit dashboard for data-driven insights.
- Full-Stack
- UpTradeLevel MLM Platform** Frontend | Backend | Live
 - Developed a full-stack MLM platform with JWT auth, admin controls, and referral system.
 - Implemented financial modules and deployed on Vercel and VPS using PM2.
- Totem CRM System (Digital Marketing CRM Platform)** Live
 - Developed a full-stack CRM system using the MERN stack for managing clients, leads, and marketing workflows.
 - Deployed on a VPS server using PM2 for scalable and reliable backend services.

Education

- Aug 2023 – Present
- B.Tech in Computer Science and Engineering**
Assam University, Silchar.

Achievements & Certifications

- 2026
- 1st Place – CP War, Yantraksh 2026**, Assam University, Silchar
 - Amazon ML Challenge** – Developed a LightGBM regression model for predictive modeling, achieving an SMPE score of 48.6 through feature engineering and model tuning.
 - Semi-Finalist – ET-AI Hackathon 2026**, The Economic Times – Commended for innovation, collaborative spirit, and commitment to building meaningful AI solutions.
